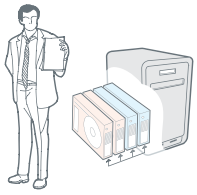
LG NAS

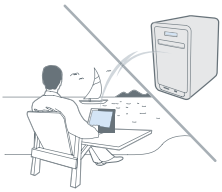
YOUR DATA, PROFESSIONALLY MANAGED.

LG.ca

LG NAS is the first and only Network Attached Storage device to feature a Blu-ay™ RW Drive. Have you ever lost data due to crashing or hard drive failure? LG NAS eliminates these headaches by providing robust RAID, a system of backup hard drives to prevent data loss. Easily switch between multiple versions of the same document. Access your files from outside the office thanks to the Remote Access function. The LG NAS is your guardian angel.



Up to 4TB or more of internal storage. Guaranteed safety of 2nd archive data.



Easy Data Management. Remote Access / Multiple User Access

Compatible with Windows, Linux and Mac Computers and Networks

FEATURES

- Only NAS in market with Built-in Blu-ray™ RW
- Attaches to a network rather than a PC
- 1 year exchange over the service portal.
